# SECTION 1 - WBKA organisation

## 1.1 Introduction

1.1.1 The Wiltshire Beekeepers Association (WBKA) is an Area Association Member of the British Beekeepers Association (BBKA) which was founded in 1874 as a national umbrella organisation for beekeeping associations. The WBKA in turn provides an umbrella organisation for its authorised County Branches of Kennet (KBKA), Swindon and District (SDBKA), Melksham (MBKA) and West Wilts (WWBKA).

## 1.2 Constitution of the WBKA

1.2.1 The WBKA is a Charitable Incorporated Organisation (CIO) whose Constitution is approved by both the Association membership and the Charity Commission. The Constitution glossary and index are at Appendix 1 which highlights the outline framework of its governance, including the legal responsibilities of the CIO Trustees (clauses 12-19 inclusive, but see also paragraphs 1.6.4 – 1.6.7 below). The Constitution can only be amended by a resolution agreed in writing by all members; or, by voting at an Annual General Meeting or at a Special General Meeting - providing that the amendment receives at least 75% of the votes cast. No amendment to the Constitution can take effect until it has also been recorded in the Register of Charities. No amendment may be made to certain clauses (including clause 3, clause 28 and clause 29) unless prior written consent has been obtained from the Charity Commission.

## 1.3 Objects of the WBKA

1.3.1 The objects of the CIO are to advance the education of the public and beekeepers in the craft of beekeeping and promote the importance of bees in the environment. See clause 3 of the Constitution.

## 1.4 County rules for members of the WBKA

1.4.1 The Rules for members of the WBKA are those matters which are an extension of the Constitution and contain further regulations private to the WBKA for the proper conduct and management of the Association. The Rules which are at Appendix 2 can only be changed by the membership at an AGM or SGM with a 75% majority in favour of the proposed change(s).

## 1.5 Purpose of the CIO Trustees Handbook

1.5.1 The purpose of this handbook is to complement the Constitution and Rules and to provide all the policies and procedures for the more detailed governance of the WBKA and its membership by the Trustees all in one place. However, no set of written words will cover every eventuality, and this combined with the fact that the WBKA is very much an active hobby organisation which aims to meet the needs of its members, means that the Trustees should not hesitate to apply flexibility and common sense but without contravening the terms of the Constitution where appropriate. The Trustees may make changes to this document from time to time for the better governance of the WBKA.

1.5.2 References in this document to the provisions of the Constitution are for information only and for any definitive interpretation of them, reference must be made to the latest version of the Constitution as registered with the Charity Commission.

## 1.6 Management structure

1.6.1 As a CIO, the WBKA is managed and administered by Trustees in accordance with the Constitution (Glossary and Index in Appendix 1) and the Rules in Appendix 2, both of which

highlight the outline framework of its governance, including the legal responsibilities of the CIO Trustees. More specific responsibilities are detailed in paragraph 1.6.4 – 1.6.9 inclusive.

#### Complement of Trustees

1.6.2 The WBKA CIO has a complement of the eleven Trustees comprising:

The WBKA Chair

The WBKA Treasurer

The WBKA Secretary

Two Registered members chosen to be a Trustee by each of the four Branches

Note: Additionally, the President, although non-voting, may attend a Trustees meeting by invitation.

#### Trustee appointment timing and rotation

1.6.3 Upon creation of the CIO, the first Trustees are automatically appointed in accordance with clause 12(4) of the Constitution.

1.6.4 At the first AGM, if no ex-officio Trustee has changed since creation, the Secretary retires automatically (Constitution clause 13(1)(a)). However, they are eligible for re-appointment (Constitution clause 13(1)(d)) for a period of 3 years (Constitution clause 13(2)(d)).

1.6.5 **Ex-officio Trustees.** At all subsequent AGMs, the longest serving ex-officio Trustee (Chair, Treasurer and Secretary) automatically retires by rotation (Constitution clause 13(1)(b)) and may be eligible for re-appointment (Constitution clause 13(1)(d)) for a period of 3 years (Constitution clause 13(2)(d)).

1.6.6 If an ex-officio Trustee was appointed at the same time as another ex-officio Trustee, then they should mutually agree who should retire first and if they cannot agree, then by lot (Constitution clause 13(1)(c)).

1.6.7 If vacancies arise between AGMs, the other Trustees can appoint a new Trustee (Constitution clause 13(1)(e)) but that Trustee can only serve until the next AGM (Constitution clause 13(1)(f)), but may be re-elected by that AGM (Constitution clause 13(1)(c)).

1.6.8 **Branch Trustees.** Any vacancies of Branch trustees can be filled by the members appointed at a Branch AGM or SGM (Constitution clause 13(1)(g)) for a period of 3 years (Constitution clause 13(3)(c)). If vacancies arise between AGMs/SGMs, either the members of that Branch or the other Trustees can appoint a new Trustee (Constitution clause 13(1)(h)).

1.6.9 If vacancies arise between AGMs, any Trustee appointed by the other Trustees can only serve until the next Branch AGM or SGM, but may be re-elected by that Branch AGM or SGM (Constitution clause 13(1)(i)).

If at any time a branch fails to have any trustee in post the charity trustees may at that time decide to appoint a new branch charity trustee from any branch provided that such person is not already a trustee of the charity.

#### Trustees responsibilities

1.6.10 The most up to date responsibilities of a CIO Trustee are formally documented in the Charity Commission's section of the Government's website

<https://www.gov.uk/guidance/charity-commission-guidance> under the following four headings:

- a. 5 minute guides for charity trustees

- b. Guidance by topic
- c. Search for guidance
- d. Detailed “CC” guidance: CC3 to CC49
  - o Found here: <https://www.gov.uk/government/collections/list-of-charity-commission-cc-guidance-publications>

1.6.11 Two of the latter, CC3 and CC3a below, summarise the main responsibilities of a Trustee, but any references in this Handbook to the Charity Commission website are for information only and for any definitive interpretation of them, reference must be made to actual website at [www.gov.uk](http://www.gov.uk).

#### Trustee Governance

1.6.13 See below

# The Governance Jigsaw – The Essential Trustee (CC3)

## It's about knowing:

- how your charity is fulfilling its purposes and benefiting the public
- what difference your charity is really making

## It's about being:

- familiar with your governing document
- up to date with filing accounts, returns and any changes to your charity's registration details
- aware of other laws that apply to your charity

## It's not about being:

- an expert - but you do need to take reasonable steps to find out

## It's about:

- making balanced, informed decisions
- recognising & dealing with conflicts of interest
- ensuring trustee benefits are allowed
- being prepared to question and challenge
- accepting majority decisions

## It's not about:

- preserving the charity for its own sake
- serving personal interests

## It's about:

- managing risks, protecting assets (reputation) and people
- getting the resources your charity needs
- having and following appropriate controls and procedures
- dealing with land and buildings
- responsibility for, and to, staff and volunteers

## It's about:

- using your skills and experience
- deciding when you need advice
- preparing for meetings
- getting the information you need (financial, management)
- being prepared in case something does go wrong

## It's about:

- meeting legal accounting and reporting requirements
- being able to show that your charity complies with the law and is effective
- being accountable to members and others with an interest in the charity
- ensuring that staff and volunteers are accountable to the board
- welcoming accountability as an opportunity not a burden

If Trustees are faced with a problem not covered by this Trustees Handbook, it is worth referring to the Charity Commission website which provides a lot of helpful and detailed guidance when required. If you still cannot find the answer it is also worth telephoning or emailing them to ask for help, which is free. Their answer may take a little time coming but it is usually worth exhausting this resource first and before considering instructing a legal firm to advise, which will come at a cost to WBKA.

## Trustees County Duties

1.6.14 In addition to the management and administration duties defined in paragraph 1.6.1, the other duties of the Trustees are to:

- Further the objects of WBKA by advancing the education of the public and beekeepers in the craft of beekeeping and promoting the importance of bees in the environment.
- Appoint non-voting officers of the Management Board
- Ensuring the Management Board exercises transparent control of the WBKA's finances in accordance with the policies and procedures within Section 3 of this Handbook.

## Trustees Accountability

1.6.15 The Trustees are accountable to the:

- Charity Commission during both formal inspections as well as by submission of an annual report and/or comprehensive annual accounts.
- Membership through the AGM, and by providing access to the annual report and accounts.

## Management Board (MB)

1.6.16 The Trustees are supported in the day-to-day operational management and administration of the Association by a Management Board (MB) whose membership of voting and non-voting members is defined in the Board's Terms of Reference in paragraph 5.1.4. A summary of the MBs membership is tabulated below in paragraph 1.6.17 below for ease of reference.

# SECTION 2 - MEMBERSHIP, ADMINISTRATION AND MEETINGS

## 2.1 Members code of conduct

2.1.1 The members' code of conduct is set out in the Rules for members at Appendix 2.

## 2.2 Membership management

2.2.1 As autonomous units within the WBKA, Branches are expected to comply with all Rules in Appendix 2 governing their operations with a light touch oversight by WBKA. In particular, Branches are required to:

- a. Record information relating to new, existing and retiring members in compliance with the eR2 system provided by the BBKA, and
- b. Keep that data safe, and
- c. Press their members to pay their annual capitation fees within time specified deadline in Branch Rules to ensure they qualify for full membership status including voting rights and insurance.

## 2.3 Categories of membership

2.3.1 The WBKA has the following categories of membership:

**Registered.** Otherwise known as full, this class is the member with full rights to BBKA membership, public liability and trustee insurance cover, basic 3 colony BDI cover and membership of county and their Branch paying subscriptions or premiums for each. This category can vote in County and Branch meetings.

**Country.** This category of member has full rights as per a registered member but does not keep bees, and therefore pays no public liability, trustee insurance or BDI cover. However, this category can vote in County and Branch meetings.

**Partner.** This category of member is a partner of a current fully paid up registered member of the same Branch who is a beekeeper but whose bees are covered by that registered member's BDI cover. However, this category can vote in County meetings, but only in Branch meetings where authorised by the Branch – see Table of voting rights at 2.4 below.

**Local.** This category of member is also called Associate at Branch level and is a non-voting Branch-only member paying solely a Branch subscription and is either:

- a. A registered BBKA Area Association member elsewhere (not necessarily in Wiltshire) and
  - a. Either does not keep bees or
  - b. Whose bees are covered elsewhere or,
- b. A social member of the Branch.

**Junior.** This category of member who is aged between 9 and 18 years old is regarded as a full member, but without voting rights and whose subscription fees for the BBKA and WBKA are subsidised by the WBKA and Branches who decide their own policy for charging Branch subscriptions.

2.3.2 These categories are broadly based on the BBKA classification of members in order to charge the correct capitation fee, but are not exactly the same.

## 2.4 Voting rights

Class of membership	KBKA	MBKA	SDBKA	WWBKA	WBKA	BBKA
Registered (full)	Y	Y	Y	Y	Y	Y
Country	Y	Y	Y	N/A	Y	Y
Partner	Y	N	Y	Y	Y	Y
Local – aka “Associate”	N	Y but only in Branch	N	Y but only in Branch	N	N
Junior	N	N	N	N	N	N

No member has a vote until they have paid their annual subscription (capitation and membership fees) in accordance with paragraph 9(5)(c) of the Constitution. This should be paid within three months of the due date of 1 October (Appendix 2, Finance, Rule 7)

## 2.5 Rules on Meetings

**2.5.1 Trustee Meetings.** It is up to the Trustees to decide how they wish to structure and run their Trustees and MB meetings within the provisions of the Constitution (clauses 17 to 20). Minutes must be recorded (clause 24) and kept for future reference.

**2.5.2** To provide an initial framework for trustees which they may wish to adopt, it is suggested that at least 21 clear days’ notice of a meeting is given to participants with the agenda and papers for discussion and decision in order to have a good attendance and considered debate.

**2.5.3 Members meetings.** The provisions for general meetings of members are set out in clauses 10 & 11 of the Constitution. Except for the first AGM, AGMs are held annually within 15 months of each other and must include the business set out in clause 11(1). They can include other business. SGMs are held for specific reasons and can be held at any time.

**2.5.4** There are special rules for removing trustees (clause 15(2)), changing the constitution (clause 28) and dissolving WBKA (clause 29).

## 2.6 County Honey Show

**2.6.1** A sub-committee, ideally formed from members of all four WBKA Branches, with its Chair reporting to the MB, will meet regularly to plan and stage the annual County Honey Show.

**2.6.2** The format of the event is for the sub-committee to decide and implement to the best of their abilities. In order to further the WBKA’s charitable objects, it will be open to the public giving them an opportunity to learn about bees and beekeeping. The event may include speakers, trade exhibitors and charity, and show classes open to the public. Sponsors may be invited to support the event. Schools/the public may be invited to participate in some part of the day. The event may include sales of members’ honey and bee products, under conditions decided by the sub-committee, with all honey sold complying with honey, labelling and hygiene regulations.

**2.6.3** At a minimum the event will comprise a honey show in which all members of all Branches are invited to compete in a number of classes related to honeybee products. The honey show requires at least one BBKA show judge to adjudicate. Honey, hygiene, health and safety and all other relevant regulations (e.g. licencing laws, raffle regulations) will be complied with by the sub-committee officers staging the event.

**2.6.4** The event will require advance funding from the WBKA for expenses (e.g. for venue hire, judges, speakers, marketing) and the sub-committee will arrange to reimburse the WBKA all

funds derived from the show in a timely way after legitimate show expenses have been paid. A budget will be prepared and agreed with the MB before any WBKA funds are released to the sub-committee. Usually, one of the Branches will act as show banker.

## 2.7 Asset Registers

**2.7.1 Permanent Asset Register.** Capital items purchased, or acquired by donation, are considered to be under the permanent custodianship of the WBKA. These items must be recorded in an asset register which is held and maintained by the WBKA Treasurer. An inventory check must be completed at least annually, but as the majority of these items are trophies, this check is normally carried out at the County Honey Show when holders are returning them for future winners.

**2.7.2 Temporary Loan Asset Register.** Winners of WBKA competitions may retain their trophies whilst they are the holder, but they must sign for their trophy on receipt in a Temporary Loan Asset Register held and maintained by the Treasurer. For trophies, this register must include details of the address where the item is held with full contact details of the holder.

**2.7.3 Asset Insurance.** The Trustees must ensure that any items on any of the asset registers must be insured if appropriate, taking into account the monetary and historical value against the risk of loss or damage.

## 2.8 Website and Social Media

As an active hobby organisation, the WBKA maintains a website and uses social media as appropriate to manage the organisation and keep the members up to date on any current information relative to their membership of the BBKA and the County Association.

However, as the CIO objects of WBKA also include education of the public (as well as beekeepers) in the craft of beekeeping and promoting the importance of bees in the environment, it is imperative that the Association's website and social media platforms keep this wider audience well informed. To this end, the Association has a dedicated Webmaster whose role (paragraph 5.8) is to keep the website up to date with content appropriate to the general public as well as beekeeping members.

## 2.9 Honey Bee Times – process for publication

### Purpose

**2.9.1** One of the media vehicles to advance the WBKA objects of advancing the education of the public and beekeepers in the craft of beekeeping, as well as promoting the importance of bees in the environment is the publication of the Honey Bee Times.

**2.9.2** Publication of this magazine is led, managed and coordinated by the Honey Bee Times Editor whose terms of reference are at paragraph 5.13 of this Handbook.

An overview of what is involved is set out below, although the editor may choose a different modus operandi, delivery format and magazine structure to suit them and their skills.

The Editor will agree when forthcoming editions will be published with the Management Board and Trustees.

# SECTION 3 - FINANCIAL MANAGEMENT, CONTROL AND REPORTING

## 3.1 Introduction

3.1.1 This section defines the Management, Control and Reporting of financial matters at both Branch and central level. Each subject starts with a single policy statement which is followed by a description of basic procedures that implement the policy.

### Branch obligations

3.1.2 In order that WBKA can collectively comply with its legal obligations, the policy statements do apply to all Branches of WBKA, and the officers of each Branch must follow the procedures outlined. The procedures are supported by guidance notes.

### Guidance notes

3.1.3 These are provided to help readers with less experience of financial management implement the policy, but they are not mandatory. If a Branch's officers determine a better way of applying the procedures effectively, they may take that alternative approach; this is how best practice evolves.

### Branch autonomy and advice

3.1.4 In normal circumstances, the officers of each Branch are expected to work independently although they can seek help from the County Treasurer at any time, if they wish. In the unlikely event that the financial conduct of a Branch is so poor as to undermine WBKA's collective capacity to function normally or to fulfil its legal obligations, the Trustees would be required to intervene.

### Central finance control

3.1.5 WBKA's central finances will be managed and controlled in the same way as Branch finances, and any reference to Branch officers will apply to WBKA's officers for the purpose of managing WBKA's central finances unless differences are detailed.

## 3.2 Financial Management Policy

3.2.1 The financial management policy requires the WBKA to take all reasonable actions to safeguard its assets against misuse.

### Financial Management Procedures:

3.2.2 These include

- a. Bank mandates require two signatures for any authorisation and named authorised signatories from within our membership.
- b. Bank signatories require "View" access to the accounts that they control using electronic banking. The Branch Treasurer and one other signatory must have authority to make payments via electronic banking.
- c. All electronic payments over £50 must be pre-approved by someone other than the authorised payer.
- d. The Treasurer may make electronic payments of up to £50 without pre-approval, and the other signatory must have pre-approval for all electronic payments.
- e. All monetary receipts must be banked promptly.
- f. All physical assets must be appropriately secured.
- g. No legal liability shall be incurred without prior written or minuted approval of the Trustees.

### Appointment of Branch Treasurer

3.2.3 As most receipts and payments are made electronically, the normal practice will be for the Branch to appoint a Treasurer, who will be the person authorised to make payments using the bank's internet based tools.

### Signatory control

3.2.4 The traditional safeguard of two signatures on cheques ensured that at least two Branch officers were aware of the payment, so if one was tempted to misuse funds, the other would prevent them. This control has been undermined by the rise of internet banking, as most internet banking tools presume authorisation by a single person. This could expose the signatory to criticism by Members, and could expose Members to impropriety by the signatory. To address this, we need two actions to ensure that all significant payments are reviewed by two officers of the Branch. The first is described in the next paragraph and the second is described in the section on Financial Control.

### Making payments

3.2.5 The signatories should not make payments without independent, prior written approval. This could take a number of forms, including:

- a. Minutes of a Branch meeting, which might include the payment of repetitive costs, or
- b. A request from another Branch officer with responsibility for the expenditure.

3.2.6 Normally, If the signatory has to instigate a payment, they should obtain email approval from another Branch officer. However, the Branch Treasurer may make small payments of up to £50 without involving another Branch officer.

### Retention of approvals

3.2.7 All written approvals should be retained until the year end accounts have been independently inspected. Where expense is authorised in committee, the minutes of meeting achieve this, but in other cases this could be as simple as retaining emails in a folder. If approval has been given for repetitive payments, such as hire of a village hall, this may last for more than a year and should be retained for longer.

### Banking cash and cheques

3.2.8 It is increasingly unusual to collect cash and cheques, but if significant values of cash are received, they should be banked, not spent. Banking of cash and cheques should be done promptly. Cheques can now be banked without visiting the bank, using internet banking.

### Cash floats

3.2.9 If cash is routinely needed for minor expenses, the Branch should maintain a fixed value cash float held in a secure container. A named person should be responsible for the security of the float. As cash is spent, vouchers or invoices explaining the expense should be held in the float container, the value of these and the value of remaining cash should always add up to the approved float value. When the cash needs to be replenished, the Treasurer should release funds from the bank to the value of vouchers and invoices passed to them. Small value cash receipts can be taken into the float, provided a voucher explaining the date, time and value is provided.

## 3.3 Financial Control Policy

3.3.1 The financial control policy requires that all WBKA bank statements are independently reviewed to confirm integrity.

## Financial Control Procedures

### Bank statement reviews

3.3.3 At regular intervals throughout the year a Branch officer not authorised to make electronic payments must review all bank statements and confirm that all payments have been correctly approved.

3.3.4 At those reviews the balance of each bank account must be confirmed with both the bank statement and Branch's accounting record, to ensure the record is complete.

### Guidance Notes on Financial Control:

3.3.5 Someone other than the Treasurer, often the Chair of the Branch, should review the bank statement periodically. The Chair will ask the Treasurer to vouch any payments that they do not recognise, and the Treasurer will present the written approval for the payment. The Chair will sign the bank statement at the closing balance as evidence of the review. If the two officers cannot meet face to face, the process can be done by exchange of email, as long as there is a clear record of the closing date and account balance the Chair is acknowledging.

### Presenting accounts

3.3.6 Whenever the Treasurer is presenting accounts, the Chair should:

- a. Ensure that the two officers' review of the bank statements is complete up to the date of the accounts
- b. Check that the closing bank balances are consistent with the reported reserves of the Branch.

### Reconciling reserves and bank statements

3.3.7 Given the way WBKA operates, it is likely that the reported reserves and bank statement balances will match in value, but if for any reason they do not, the Treasurer should list the transactions that reconcile the two documents for the Chair to review.

3.3.8 If the Chair is not able to undertake these tasks for any reason, they will nominate a deputy.

### Members and Trustees Expenses

3.3.9 Where circumstances are appropriate, the WBKA may wish to reimburse Members or Trustees for reasonable expenses incurred while performing tasks or duties requested by the Association. The policy for these expenses whilst performing tasks or duties requested by the Association at detailed in section 4.5.1 of this Handbook.

### Swarm Collection Expenses

3.3.10 The BBKA rules state that no one may charge for a swarm, the WBKA's policy is that any sums paid for the collector's expenses are to be paid from that member's Branch.

## 3.4 Financial Reporting Policy

3.4.1 The financial reporting policy requires that the WBKA prepares and publishes accounts for the benefit of Members and to meet all external requirements.

3.4.2 Each Branch will determine the timing, format and circulation of Branch accounts to its officers and members, spread at regular intervals through the year.

3.4.3 At the close of each fiscal year, each Branch will provide a Receipts and Payments account for the full year in a format that facilitates aggregation and onward disclosure to regulatory authorities.

3.4.4 The officers of each Branch are responsible for ensuring that the accounts issued provide a reliable and informative record of the activity of the Branch during the reporting period and of its assets and liabilities at the close.

#### Guidance notes on Financial Reporting

##### Summaries

3.4.5 In practice, the Treasurer will deliver accounts to regular Branch committee meetings, and the Chair will endorse the bank statement at that time to show that the accounts are up to date and accurate. The accounts will normally be a summary of all Receipts and Payments, the total of which will explain how the reserves have changed. The Branch Treasurer will summarise the receipts and payments into headings that best informs the interests of Branch Members. It will generally be good practice to include a comparative value to help Members and Officers consider trends, either the prior year values or a current year budget. Where an activity generates both receipts and payments, these should be grossed up. For example, where training courses attract income but require some expense, the two values will be shown separately, but in a way that makes clear the connection.

##### Year End

3.4.6 At the year end, the CIO Treasurer will provide a template of a similar Receipts and Payments report, but with some predetermined summary headings. This is necessary in order that the accounts from all Branches can be aggregated in a meaningful way. It is likely to include less detail than the Branch reports.

3.4.7 The Branch accounts and year end accounts may have different formats, but must be consistent. In practice, the opening and closing reserves figures will be the same. The year end accounts will include a simple statement about the purpose of reserves, as required by our reserves policy.

## 3.5 Reserves Policy

3.5.1 For a CIO, the Charity Commission requires the WBKA to have a reserves policy that applies equally across all Branches of the Association.

As a reserves policy, the WBKA will maintain:

- a. Adequate general reserves to protect its current activities from unplanned disruption or closure caused by fluctuations in income and expenditure.
- b. Designated funds to enable the realisation of future plans and aspirations.

In all cases, these reserves and funds are to be compliant with the WBKA's legal or regulatory obligations, and the legal duties of its Trustees. When changing the value of any reserves or funds, the WBKA will respect any guidance provided by the Charity Commission.

3.5.3 Officers and Trustees have a legal duty to spend income on the charitable purpose within a reasonable time. They may create reserves, but they must justify doing so within the context of the charitable purpose

##### Restricted and Unrestricted Funds

3.5.4 Money belonging to charity are characterised as "Restricted" or "Unrestricted". Restricted funds arise when charity accept conditional donations that restrict how the money can be used. If the Trustees accept such a bequest, they are obliged to honour the terms of the bequest within the same compliance framework as all other donations and must be kept separate from unrestricted funds.

3.5.5 For both unrestrictive funds and unrestrictive reserves, designated reserves are for specific projects considered and resolved by the Branch committee; general reserves are the remaining unspent money of the Branch.

3.5.6 WBKA intends that each Branch should spend the money it raises, and this policy allows each Branch to set reserves and funds at levels of its choosing as long as it:

- a. Complies with the policy statement in paragraph 3.5.1 above, and
- b. Does not negatively impact on other Branches without prior agreement.

#### Monitoring Reserves

3.5.7 WBKA has a legal responsibility to monitor the operation of its Reserves Policy, and all its Trustees have a responsibility to ensure that it does so. To this end, the officers of WBKA will make enquiries of the Branch officers in regard to the valuation and purpose of general reserves and designated funds. These enquiries are solely for the purpose of confirming the application of the reserves policy and practice, not to dictate how Branches choose to utilise locally raised monies.

#### Restricted Fund Reporting

3.5.8 Every charity has a responsibility to report on its restricted funds, its general reserves and its designated reserves annually. The WBKA report is a consolidated aggregation of all Branches, but it may require some identification of individual Branch decisions.

3.5.9 General reserves and designated reserves, being unrestricted, must be viewed together whereas Restricted funds must be kept separate – usually in a separate bank account. If an initial characterisation of monies as designated proves to be inappropriate, the value defaults into general reserves. So the two concepts are causally linked.

#### Managing general reserves in practice

3.5.10 The Charity Commission suggests that holding too little in general reserve creates the risk of disruption to the work of a charity, while holding excessive general reserves consumes money that should be spent on the charitable purpose. This means that the WBKA Trustees must judge what that range is for its support of beekeeping.

3.5.11 The activity of beekeepers reflects the lifecycle of their bees and follows an annual pattern. As the colony emerges from its overwintering, the pattern of its year ahead is predictable and will require the beekeeper's attention. Colonies which are not supported are more likely to spread disease and to cause a public nuisance. Therefore, the WBKA general reserves should ensure that the colonies being managed will be supported for the next season. That way, in the event that some negative scenario requires any Branch to radically contract or withdraw support, its members have time to make alternative arrangements for the colonies they manage.

3.5.12 At the close of the season, as the bees re-enter their overwintering, WBKA Branches should maintain adequate general reserves to assure support to its current members for a year ahead without assuming the levels of income to be collected. Branches must each determine for themselves which activities they consider necessary as the minimum level of support to their members, in the context of what is desirable and feasible in the circumstances of the Branch. However, the value must be greater than zero and is unlikely to exceed the value of operating expenditure in the year just closing. This timing coincides with the end of WBKA's fiscal year in September, creating a strong opportunity for fiscal review and control as the Management Council report the year.

## Designated Reserves

3.5.13 To characterise monies as a designated reserve, they must:

- a. Be held for a documented reason consistent with the WBKA charitable purpose
- b. Meet a clear commitment, typically with minuted approval
- c. Have a target value for the fund that must be quantified, but which can be revised at any time
- d. Have a clear timescale for expenditure, but this too can be revised at any time.

3.5.14 Designation of monies as a reserve is temporary. If a project or aspiration proves impractical, the need disappears or greater priorities emerge, the monies can be removed from a designated reserve and either reallocated to another reserve, or spent on other activities. However, this flexibility creates responsibility. Trustees must resist any temptation to create artificial designations in order to disguise excessive general reserves.

3.5.15 As a CIO, the WBKA may well be challenged to understand why we hold monies and how the Association can use them to best effect, and it is a reasonable challenge. Therefore, in creating designated reserves, the Trustees of WBKA must endeavour to be clear of mind and pure of heart. Examples of things that might justify monies as a designated reserve might include:

- a. Funding of future scheduled events like the Honey Show.
- b. A maintenance programme for a Branch apiary.
- c. Building up a “war chest” for a future project.

At the end of each year, the WBKA and each of its Branches must be able to justify its net assets in terms of general reserves and designated funds.

## 3.6 Dispute Resolution

3.6.1 If the officers of the WBKA have concerns about the compliance of any Branch with these financial policies, procedures and practices, they must seek to resolve these through reasonable and timely discussion with the officers of that Branch.

3.6.2 In the unlikely event that a difference of view cannot be resolved by discussion, either the Chair of the Branch or the Chair of WBKA can request the opinion of the Trustees who may seek the opinion of the Independent Examiner. Any cost associated with this will be paid by WBKA if the Branch’s view is upheld, or by the Branch if it is not.

- b. Reasonable travelling expenses if not by private motor vehicle
- c. Pre authorised rail travel at Standard Class
- d. Reasonably priced overnight accommodation where necessary.
- e. Any other reasonable expense agreed at an MB meeting and minuted.

## 5.14 WBKA “BEE CRAFT” NOMINEE SHAREHOLDER - TERMS OF REFERENCE

### 5.14.1 History

Kent Beekeepers’ Association launched ‘Bee Craft’ as a county beekeeping journal in 1919. Other Associations gradually joined in and, by 1948, the journal had become a national rather than local journal so arrangements were made to pass control to a more representative body. A limited liability company, Bee Craft Ltd, was created to take over the publishing of the journal from Kent BKA.

In January 1949 the share capital of the company was £6,000 divided into 6,000 shares of £1 each. Bee Craft Ltd owned the publishing business and Kent BKA owned the 6,000 fully paid shares in the company. Kent then gave away most of the shares to other county associations that were affiliated to BBKA (in proportion to the support those associations gave to the journal). Wiltshire BKA was given 38 of the shares.

Government legislation during the early 1980’s meant that the status of Bee Craft Ltd is now a private limited company (no 00463112). Wiltshire’s 38 shares are held in the name of a nominee - who is a member of the WBKA appointed by the Trustees.

This does not stop members or trustees making suggestions for changes to the trustees from time to time. The Trustees have a duty to ensure that all the resolutions proposed are lawful [Clause 11(2)(e)].

## 10 BBKA SWARM COLLECTION SERVICE

**10.1** The BBKA operates a 24/7 national swarm collection service which can be accessed by members of the public who require help to remove swarms of honeybees from their properties. The service is provided by locally based ‘approved swarm collectors’ who are experienced and competent beekeepers selected and appointed by local area associations on behalf of the BBKA, and who undertake the task on a voluntary basis. Members of the public can access the service by visiting the BBKA website [www.bbka.org.uk](http://www.bbka.org.uk) where they are guided to a map on which the location of each swarm collector is indicated by a ‘pin’ on the map. By inputting the postcode of the swarm location and clicking on the pins nearest to that location the enquirer can obtain contact details for their nearest swarm collectors.

**10.2** In Wiltshire, the onus for recruiting suitable beekeepers rests with Branches and, within the West Wilts Branch, the Committee has adopted the following selection criteria. Members who wish to become ‘approved swarm collectors’ on the BBKA’s list must:

- a. be a registered member (or partner) of West Wilts Branch of the WBKA, and
- b. have achieved the Basic Beekeeping Certificate, or
- c. have kept bees for at least five years, and
- d. have proved their competence by having successfully captured and hived at least one swarm, and
- e. be familiar with the BBKA Guidelines on swarm collection (BBKA leaflet L004: ‘*Collecting a swarm*’), and
- f. be familiar with the BBKA’s “Swarm Collectors Protocol” (see paragraph 11.5) and be committed to work to the standards of that protocol.

**10.3** The list of approved beekeepers for the forthcoming season should be drawn up by the beginning of March each year, and updated accordingly on the eR2 membership database by the Membership Secretary.

When drawing up the list, the Branch Swarms Coordinator will check whether those who were on the list for the previous year wish to remain on the list.

Any other members who have applied to become BBKA Swarm Collectors, should be considered by the Branch Committee against the criteria listed in paragraph 11.2 (above) and, if considered sufficiently experienced and competent, their names may be added to the list. If the number of names on the list is considered too few, approaches could be made to other members who satisfy the criteria, especially if they live in areas where there would otherwise be no approved BBKA swarm collector.

**10.4** Thereafter, the Swarms Liaison Officer will brief the swarm collectors on:

- a. The contents, meaning and implications of the Swarm Collectors Protocol
- b. Whilst the primary purpose of the swarm collection is to provide an important service to the public, a secondary benefit is to provide a useful source of bees for other branch members (especially beginners) who need them. Obviously, the collectors may sometimes need a swarm themselves but they should not allow their own needs (i.e whether they need a swarm, or not) to determine whether to go out to collect a swarm.

### 10.5 BBKA’s Swarm Collectors Protocol

The BBKA’s Swarm Collectors Protocol, which is available on the BBKA’s website at <https://www.bbka.org.uk/branch-and-association-resources> is reproduced in these Branch Rules for members ease of access. It is intended to identify the necessary knowledge and standards, which are felt to be required of any beekeeper who undertakes to collect swarms on behalf of their Association and the BBKA. Its terms are summarised below:

#### Considerations:

- *Dealing with a swarm of honey bees can be a difficult task. It is therefore recommended that new or inexperienced beekeepers should not undertake this work until they have received appropriate*

*training within their Association and gained sufficient knowledge and experience of swarm collecting.*

- *Telephone calls from the public can relate to **all** flying insects and not just honey bees i.e. wasps, bumble bees, solitary bees etc so the beekeeper must know what advice to provide should the reported problem not be honey bee related.*
- *Members of the public are generally concerned about swarms of honey bees and the beekeeper must be able and confident to deal with the situation and maintain a safe working environment.*
- *As a member of any swarm collecting system, it is expected that a beekeeper whose name is on the collectors list will remain on the list for the whole of the season.*
- *If a beekeeper accepts a “swarm call”, the beekeeper then owns the problem until it has either been resolved or they pass it to a fellow beekeeper to resolve i.e. it must not be ignored.*
- ***N.B. BBKA Insurance is invalid if the swarm collection is done for commercial gain.***

#### **Recommended Person:**

- *A Swarm Collector must be a beekeeper with experience of bees and beekeeping.*
- *Be aware of, and be able to assess the potential dangers and risks associated with swarm collecting to themselves, the public and property and deal with them appropriately.*
- *Have received training & experience of collecting a swarm together with an experienced beekeeper; who will have mentored the beekeeper in the task to ensure that the beekeeper is able to undertake the task correctly and safely.*
- *They should be aware of the public liability insurance restrictions associated with their membership, i.e. whilst the beekeeper can request payment of expenses associated with the work or a donation to their Association, the beekeeper cannot:  
Undertake the work for commercial gain i.e. cannot make a charge for the service, nor  
Sell-on the swarm to a third party.*
- *Be familiar with the BBKA Guidelines on swarm collection (BBKA Information Leaflet L004 – ‘Collecting a swarm’).*
- *Know what to do in respect to the safe disposal of the swarm after it has been collected, i.e. hive it or pass it to another beekeeper.*
- *Be able to communicate with the public and be prepared to show their BBKA membership card if requested.*
- *Be physically able to perform all tasks.*
- *Be contactable by telephone, but that does not imply that the beekeeper has always to be available to collect swarms, or to accept all calls.*

---

#### **10.6 Distribution of swarms.**

To help find homes for the swarms collected by the Approved BBKA Swarm Collectors, the Branch Swarm Coordinator will maintain an annual list of those branch members who would like to provide a home for a swarm. Those Branch members who would like to receive a swarm can supply their contact details to the Swarm Coordinator to add to the list. Besides its use for swarms captured by the appointed Swarm Collectors, the list could also be used to find a home for any other unexpected swarm which a branch member wishes to pass on to somebody else.

#### **10.7 Recording movement of swarms**

For the benefit of those who accept swarms, Swarm Collectors are encouraged to keep a record of each swarm (or cast), showing where the swarm was collected from, and who the swarm was passed on to. This will enable the member who received the swarm to be alerted if they have been given a swarm which was collected from an area where a bee disease or bee parasite is subsequently discovered.

#### **10.8 WEST WILTS BEE BANK**

The purpose of the WWBKA bee bank is to link members who wish to sell a nucleus of bees to members who wish to buy one. The advantages of buying bees through the club are that:

- a. The bees have been raised locally, and should therefore be well suited to local conditions.
- b. Nuclei that are offered for sale should comply with the BBKA Standard and Guidance Notes for Nuclei (see <https://www.bbka.org.uk/bbka-leaflets>).

- c. The purchase price is lower than that typically charged for commercially sold nucs. The price of summer raised (same season) nucs is £110.00, and the price of over-wintered nucs is £180. The purchaser will pay the seller direct.
- d. Club members selling nucs are able to raise some funds to offset the running costs of their beekeeping hobby.
- e. Your club benefits from a small contribution towards club funds.

**10.9** Having transferred the nucleus to a hive, the purchaser will, unless otherwise agreed with the seller, return the nuc box to the seller, including 5 clean brood frames with foundation.

**10.10** The seller undertakes to donate £10.00 from each sale arranged through the WWBKA Bee Bank to the WWBKA.

**10.11** The Secretary will maintain a list of members who wish to sell nucs and those who wish to purchase one. Members wishing to go on to the list agree to provide the following personal information which will be shared with prospective sellers and purchasers for the purposes of arranging a sale:

- a. Full name
- b. Contact telephone number(s) and email
- c. For sellers- the location of the apiary where the nucleus is located
- d. For buyers - the location of the apiary where the nucleus is to be hived

Members wishing to be included on the Bee Bank list, should contact the Secretary on [Secretary-WWBKA@outlook.com](mailto:Secretary-WWBKA@outlook.com).

## 11. MENTORING

### 11.1 Mentoring Programme

The Branch runs an annual mentoring programme primarily to provide the correct level of practical support for:

- a. Graduates of the Beginners Course once they have completed the second practical session at the Club Apiary, and
- b. New members who join in the middle of season AND commit to joining the next Beginners Course, or
- c. Exceptionally when members need some additional support .

### 11.2 Role of the Mentoring Coordinator

The Mentoring Coordinator is required to provide an annually documented list of mentors and mentees having:

- a. Approached all students on the Beginners Course to identify which ones either have bees, or plan to get bees during the upcoming season.
- b. Identified sufficient volunteer mentors
- c. Matched mentors and mentees initially by geographic proximity, but taking into account the experience of both parties and/or any special requirements.
- d. Gained agreement from the Basic Course Director for the proposed pairing.
- e. Informed all mentors and mentees (normally by email) with whom they are paired for the upcoming season.

**11.3** The formal mentoring programme is deemed to be in effect from the point at which Beginners Course graduates complete their second apiary practical session in the Spring of the forthcoming season until 30 March of the following year. This ensures that mentees are supported as their colonies emerge from the winter, but then allows mentors to be available for new students. However, as many mentoring pairings lead to on-going friendships, there is no reason why any mentoring beyond that date should not continue - but outwith the formal programme.

**11.4** It is fully recognised that the success of mentoring arrangements relies significantly on the chemistry and relationship between the two individuals involved.

If either member – or the mentee in particular – feels that they are not getting the maximum harmonious benefits from the pairing, they should discuss the matter with the Mentoring Coordinator in complete confidence.

### **11.5 The role of a Beginners Mentor**

The role of a Beginners mentor is to provide one to one support to a nominated new beekeeper for their first beekeeping season, with such support ranging from:

- a. Encouraging new Beekeepers to attend the Apiary fortnightly throughout the season.”
- b. Advice by phone and/or email on basic beekeeping matters as and when requested by the Beginner.
- c. Meeting the Beginner at the Branch apiary for dedicated one-to-one mentoring and practical training as agreed with, and programmed by the Apiary Manager.
- d. Assisting with weekly inspections at the Beginners apiary (if mutually agreed)
- e. Assisting with weekly inspections at the Mentor’s apiary (if practical and convenient)
- f. Ensuring the Beginner is made aware of any training or experience that they would otherwise not be aware of.

## **12. LIBRARY**

**12.1** Members may borrow books free of charge from the Branch Librarian. Whilst in their custody, members are responsible for the care and protection of the books (some of which are now out of print) and must return them to the Librarian in good condition as soon as practicable. It is the responsibility of the “Borrower” to replace any losses and/or rectify damage.

## **13 CESSATION**

**13.1** In the event of the Association ceasing to function or wishing to close, the residual funds and assets of the Association shall pass to the WBKA to be held in trust for a period of five years, after which time they shall become the property of the WBKA.

## **14 INTERPRETATION OF BRANCH RULES**

**14.1** No Branch Rule shall be interpreted such that it will contradict either the Constitution of Wiltshire Beekeepers Association and/or that of the British Beekeepers Association.

## **15. ALTERATIONS**

**15.1** An alteration to the Branch Rules shall only be made at an AGM or SGM providing members receive in writing the proposed alterations not less than fourteen days before such a meeting and the proposed alterations are accepted by not less than two thirds of those present and eligible to vote.

# APPENDIX 6 - Branch Rules of members of Kennet Beekeepers Association (KBKA)

Version control document can be found on the last page of this section.

## 1. Introduction:

The Kennet Beekeepers Association (KBKA) has been created as a Branch Association of, and is authorised by, the Wiltshire Beekeepers Association (WBKA). The WBKA is an Area Association Member (AAM) of the British Beekeeping Association (BBKA). This rule book is designed to provide guidance to Kennet members and officers alike in regard to various policies and standards as referenced in the KBKA constitution. As members of WBKA and BBKA, Kennet members are required to conform with the BBKA and WBKA constitutions. The KBKA branch rules are in place to ensure proper conduct takes place by Kennet members and its committee officers. Officers are voted into office at the KBKA Annual General Meeting that takes place each year.

## 2. KBKA Committee

This is made up of the following officers and members are voted into the roles at the AGM for a period of 1 year, following which they may stand for re-election. At the AGM each committee member must be proposed and seconded, followed by a simple majority vote by those present at the meeting who are eligible to vote:

- 2a. Club Chairman and WBKA Trustee
- 2b. Member representative and WBKA Trustee
- 2c. Secretary
- 2d. Treasurer
- 2e. Membership Secretary
- 2f. Education & Training Secretary
- 2g. Apiary Manager/s
- 2h. Web coordinator
- 2i. Fetes and Fairs Coordinator
- 2j. Additional officers up to a maximum total committee membership not exceeding 12.

WBKA membership voted in 2022 for the WBKA to become a Charitable Incorporated Organisation (CIO) and as a consequence KBKA have voted that the chairman and a member representative must be elected to serve as Kennet Branch Trustee representatives on the WBKA Trustee and Management Board meetings for a period of three years. Any person standing for either position must meet the criteria defined by the WBKA's CIO Constitution, Clause 12, Sub-section 2, and must be prepared to sign a certifying declaration that this is true.

## 3. Code of conduct Rules

3.1 Members are expected to respect all other members regardless of age, race, gender, colour, creed or disability for example and behave courteously towards them at all times.

3.2 Regardless of the method of communication being used members are expected to be respectful to each other and to each others differing points of view.

3.3 Members are expected to behave courteously to members of the public at all times and not bring Kennet Beekeepers Association ("KBKA") into disrepute.

3.4 Members are expected to respect all laws relating to wildlife and to care for the environment in their practice of beekeeping.

Should any of the above condition be broken by a member of KBKA the following process will apply:

3.5 The KBKA committee schedule a special meeting to consider the seriousness of the offence and whether the member should be removed from the association. However, before the decision is taken to remove a member from the club the following actions must take place.

3.5 (a) inform the member of the reasons why it is proposed to remove them from membership.

3.5 (b) give the member at least 21 clear days notice in which to make representations to the committee as to why they should not be removed from the membership. A member is entitled to make their point in person, in writing or via a representative should they wish to do so.

3.5 (c) following receipt of the information from the member the committee should meet again to further consider if it is still appropriate to terminate the membership. The outcome of the meeting should be advised in writing to the individual concerned.

3.5 (d) If the member wishes to appeal the decision that has been reached then this matter will need to be referred to the WBKA.

## 4. Apiary Rules:

### Introduction:

KBKA currently have two apiaries, the production apiary at Caen Hill, for which there is no member access and the training apiary based at Bishops Cannings. Members have access to the training apiary on alternate Saturdays throughout the season when they can benefit from hands on training under the guidance of the Apiary Manager, together with a band of volunteer beekeepers known as the “A Team”. The Association has developed the training apiary for the benefit of all members, irrespective of skill level and aims to run the regular beginner sessions through the season as well specific Improver sessions for the more experienced beekeepers, covering a range of more advanced topics such as Queen rearing.

Our aim is to provide a friendly and welcoming environment for all, at whatever stage you are at in your beekeeping journey. Beginners will have the opportunity to reinforce their theory learning through practical sessions prior to obtaining their own bees – or having the opportunity to ask the many questions that inevitably arise. The Association encourages and supports these would be beekeepers to join the Introduction to Beekeeping theory course run prior to the start of the season.

4.1 Any member of the Kennet BeeKeepers Association (KBKA) using or visiting either the main KBKA apiary site or any out apiary does so entirely at their own risk. The Association shall not be liable for any damage or injury to the member, or their property.

4.2 Non-members of the KBKA must only visit the main apiary site, or any out apiary, in the presence of an Association member. The KBKA member will be responsible for the actions of the visitor. KBKA shall not be liable for any damage or injury to the visitor or their property.

4.3 Entrance to the main apiary site and any out apiary is acknowledgement and acceptance of the rules contained herewith.

4.4 Parking at any KBKA apiary is strictly at the risk of the visitor(s) and to be in accordance with the instructions given at site.

4.5 The KBKA will appoint one or more Apiary Managers who may co-opt Apiary Assistants as required (sometimes known as the A-Team). The Apiary managers are accountable to the KBKA Committee.

4.6 The Apiary Managers will be responsible for general management of the apiary site(s) they look after.

4.7 The Apiary Manager's decision is final in all matters relating to the husbandry of the club's bee. If any problems arise as a result of this policy, the matter may be taken to the KBKA Committee for final decision. Responsibility for an out apiary may be delegated to an Apiary Assistant.

4.8 The Apiary Manager will be the primary key holder (terminology used in this instance relates to actual keys and/or lock combinations) for the main apiary site and any out apiary. Members of the KBKA (in particular Apiary Assistants will be keyholders) may be key holders for the main apiary site and/or an out apiary, but only with the approval of the Apiary Manager or the KBKA Committee. The Apiary Manager will maintain a list of all key holders. Each key holder will be responsible for locking and securing the apiary after their visit.

4.9 Members who are not apiary key holders and who wish to visit the main apiary site may do so on set apiary diary dates, or when apiary classes are planned. Other visits must be made with an apiary key holder (normally an Apiary Assistant) with the knowledge of the Apiary Manager (or delegated Apiary Assistant).

4.10 Clean bee suits and gloves must be worn at all apiary inspections.

4.11 Members must not use their own equipment on any KBKA hive without prior consent of the Apiary Manager (or delegated Apiary Assistant). All equipment must be cleaned after use.

4.12 Smokers must be knocked out in a manner which does not pose any fire risk.

4.13 By prior agreement with the Apiary Manager (or delegated Apiary Assistant) and following disease inspection of the colony, a member's bees may be hived at a club apiary. This must only be temporary, to include but not limited to, relocation of hives, quarantine, re-queening or temperament assessment. Under exceptional conditions, and by prior agreement with the Apiary Manager and the KBKA Committee, a member's bees may be hived at the main apiary site. This will be for an agreed period but which may be subject to revocation or extension. The member's equipment must be clearly marked and identifiable. A fee equivalent to two 1lb jars of honey (based on the KBKA guide honey price for the current year) will be charged by KBKA.

4.14 Any member temporarily hiving bees on a KBKA out apiary (or main apiary site) shall agree to notify the Apiary Manager (or delegated Apiary Assistant) the location from where the bees are to be moved from and to where the bees are eventually moved to. This will assist the KBKA with disease control and traceability should a notifiable disease become apparent on the out apiary (or main apiary site).

4.15 No bees are to be removed from the main apiary or any out apiary site without notifying the Apiary Manager (or delegated Apiary Assistant).

4.16 No rubbish or debris is to be left on the main apiary or any out apiary site. This includes wax and hive debris. This must be removed and disposed of responsibly by the person or persons concerned. Repeated failure to do so may lead to the member being banned from any KBKA apiary site and if applicable, be requested to remove their hives from any KBKA apiary site.

4.17 Any KBKA member carrying out duties or routine management of the KBKA's colonies shall update the colony and/or apiary records in the prescribed format.

4.18 Any KBKA member carrying out routine management of colonies must advise the Apiary Manager (or delegated Apiary Assistant) immediately, ideally no more than one calendar day, of any

colony welfare concerns that could harm a colony. These shall include, but are not limited to, disease, queenlessness and shortage of stores.

4.19 Any dispute arising for the operation of these rules must be notified to the KBKA Committee in writing. Verbal presentations, at the discretion of the KBKA Committee, may also be made. A decision will be determined by a majority vote of the KBKA Committee. That decision will be final and absolute.

4.20 Any member's beehive(s) or colony(ies) not visited for a period of three months or not properly maintained in accordance with good beekeeping and bee husbandry practice, the said member will be notified verbally and in writing to remove the beehive(s) and bees from the main apiary site or out apiary. If after a further four weeks the equipment has not been removed, it will be deemed to have been abandoned and thereby, the title and ownership will pass to the KBKA.

4.21 If any hive is suspected to contain a notifiable disease the local bee inspector will be contacted, and an inspection of all hives on the apiary arranged. All members using KBKA apiary sites do so on the understanding that the National Bee Unit Bee Inspector may inspect their colonies. Should any colonies have to be destroyed, or a shook swarm arranged there can be no recourse by the owner to the KBKA. If other disease is confirmed, treatment is required if the hive(s) is to remain on any KBKA apiary site. Any treatment used must be an accepted treatment and must be acceptable to the Apiary Manager (or delegated Apiary Assistant)

4.22 Any member visiting either the main apiary site or any out apiary site must respect the landlord's wishes, both stated and implied. This should include considerate parking and restricting activities to only the apiary site and paying due diligence to the requirement of dipping footwear before entering the site.

4.23 Any breach of the above rules could constitute a breach of the conditions of membership that could lead to disciplinary action and/or revocation of the offender's membership.

## 4.24 Apiary FAQ's

Q: What is the cost of attending the fortnightly sessions at the apiary?

A: Access is free to members

Q: Do I need to have attended the Introduction to Beekeeping theory course before I can attend the practical sessions?

A: Although we strongly recommend that you do so, it is not obligatory but you will gain far more understanding of the practical side of beekeeping in the early stages if you have done so.

Q: What should I wear to attend the practical sessions?

A: A bee suit with veil is of course mandatory [and sensible], see below. Most standard one layer bee suits offer good protection from stings and especially if you wear a long sleeved shirt and trousers underneath. [you can purchase multi layered suits that offer guaranteed protection at greater expense] Wellington's or at least boots that cover your ankles are also advised [no Crocs - yes, it has happened] together with a pair of Marigold type washing up gloves. See 'will I get stung' below.

Q: Will I need my own bee suit?

A: Please bring your own suit if possible. The Association does have some spare suits but they cannot be guaranteed. You can pay a great deal for a bee suit but it is equally possible to buy a good quality one for well under £70. We recommend a one piece rather than separate jacket and trousers [one less gap for the bees to find!]. It is also advisable to order a bee suit at least one, if not two sizes bigger than your usual fitting to give yourself plenty of room to move, and to stay cooler.

Q: Do I need to bring any other beekeeping equipment for the practical sessions?

A: No, we provide the necessary kit in the early stages and it is best to see what is needed before buying what you might think you will require.

Q: Can the Association help me to find bees for myself?

A: Yes, the Association offers unbiased advice and guidance across every aspect of beekeeping, including training, clothing and equipment, hives and bees. We very strongly suggest that you attend the Introduction to Beekeeping theory course and the practical sessions prior to getting your own colony as many new beekeepers give up in the first year or two due to the loss of their colony through lack of experience.

Q: Will I get stung?

A: There is always a chance that you will get stung but unless you suffer from Anaphylaxis [see below], it normally causes little more than temporary discomfort. In the normal course of events, and provided that they are treated with respect, bees seldom become defensive enough to sting although it can never be guaranteed. If you think you may suffer from anaphylaxis then you must inform the Apiary Manager prior to any session. It is a thankfully rare occurrence but bee stings are a recognised trigger in some cases.

## 5. Swarm Collecting policy:

5.1 How can a member become a Swarm Collector for KBKA.

- The member can indicate on their membership/renewal form that they are interested.
- All parties interested in collecting Swarms in the forthcoming season are identified by the club secretary.
- A verification process is carried out by the club secretary to ensure that adequate knowledge and experience has been gained by those wishing to collect swarms. Criteria updated via KBKA committee April 2024.
- When the ratified list of swarm collectors has been completed, the first name, post code, contact information is then uploaded onto the KBKA and BBKA websites.
- Members of the public may approach the swarm collector for their area directly or if they are unable to help for any reason the swarm co-ordinator's name and contact number is provided on the KBKA website.
- Swarms identified to the swarm co-ordinator are highlighted to collectors in the nearby vicinity and if no response within a few hours the notification will be extended out to all registered swarm collectors.
- Swarm collectors may be listed at 2 post code sites as their bees may be located at a different area to their registered postal address.
- If members wish to gain experience of swarm collecting, please let your club secretary know and you can be put in contact with an experienced collector in your area.
- All swarm collectors are to be aware and abide by the procedures detailed at points 5.2 – 5.7 below.

**Note to Swarm Collectors** -When a member of the public thinks they have found a swarm of honeybees and then contacts the Swarm Co-ordinator for Kennet Beekeepers Association (KBKA) the club will contact a suitable member to collect that swarm. It is important that the collection procedure is done safely and responsibly. These guidelines are to ensure that all on the Associations list of swarm collectors are aware of the proper procedure that will be expected of them while removing a swarm of honey bees on behalf of KBKA.

5.2 KBKA swarm collectors are expected to abide by these guidelines. All members who are registered for collecting swarms will have had prior experience before they are included on the KBKA list of swarm collectors.

5.3 On being informed that there is a swarm to collect. Contact the person who has contacted KBKA as soon as possible that day and check for your own sake the following:-

- How long has the swam been there?
- Reassure that person that new swarms are usually docile, but also advise them to stay away from the bees.
- Check they are Honeybees and not wasps or bumble bees going into a building/roof.
- Ask where the swarm is, how high up?
- Will you be able to reach it?
- You will need the land owners permission to collect, ensure you have received this before proceeding.
- Is it in a public place? If in a public place you must be very responsible and make sure you have someone with you to ensure people do not get close to the bees while you are collecting them. You also need to leave a notice warning that there is a swarm box that will be collected that evening.
- Is it a swarm and not an established colony of honeybees secure behind a wall or ceiling/roof?
- If they are inside a chimney, cavity wall or in a roof space it is most likely to be an established colony and as such this type of work is a private arrangement with a qualified and insured person and is **not covered by KBKA/BBKA insurance**. No action should be taken that brings KBKA into disrepute.

5.4 Equipment Required:

- Bee suite and gloves
- An apiary and hive to put the swarm when collected.
- Nuc box/skep or strong cardboard box and sheet to cover.
- A bungee or cord to fasten the box lid.
- Cloth to cover skep.
- Smoker or water sprayer sometime needed.
- Secateurs are really useful for swarm collection when in hedges.
- A charged mobile is good should you need directions or some extra help.
- Bee brush.
- Possible step ladders.
- Transport to collect the swarm that evening.

5.5 When you first arrive:

- At the swarm site you need to establish if you can collect the swarm without help, and that the bees are not in an impossible place for you to reach.
- If you do need help now is the time to arrange this before you start collecting the bees.
- Once you are sure you can manage, you need to inform the person(s) (if they are there) that you will take charge of the collection and explain that you will knock, or shake the bees into a box/skep, or onto a cloth on the ground and then leave an upturned box there for the bees to walk up into during the rest of the day, hoping that you will have the Queen.
- The idea being that as long as the Queen goes into the box/skep the bees will signal to the flying bees that she is there and by dusk they should all be in your box/skep.
- Explain that you will leave your box/skep there, propped up on a stick so the bees can enter and join the Queen, until dusk when all the flying bees should have come home to their Queen.

- You can then seal up the box/skep, or wrap it in cloth or gauze, so that the bees can breath, but not escape.
- You then are ready to take them to your apiary and set them up in a hive in the position you wish to place them.

#### 5.6 At Dusk:

- KBKA will expect all swarm collectors to return in the evening.
- A swarm that is taken and removed during the day will leave the flying bees with no Queen and no home to come back to.
- This may leave some very annoyed and angry bees around, leaving the public in danger of being stung for several days in that area.

#### 5.7 Remember:

- If you say you can take the swarm, it becomes your responsibility to complete the task and remove the bees.
- Sometime things do go wrong, but KBKA expects every member on our Swarm collection list to be responsible and take all reasonable precautions.
- You have public liability insurance cover of up to £3,000,000- but this is made null and void if you make any charges.
- If in doubt please get another member to help you and remember you are not only representing yourself as a beekeeper but the reputation of KBKA.

## 6. Honey sold at KBKA events:

From time to time KBKA attend fetes and fairs and offer honey for sale to the public. Members honey which is of a satisfactory quality may be sold at these events at an agreed price determined by the KBKA committee. A 10% commission is payable to KBKA on all honey and bee product related sales.

## 7. Extractor Hire:

KBKA have honey extractors available to members for hire. The cost of such hire is advertised on the KBKA website and members are expected to pay promptly upon collection of the extractor and to return it within 7 days in the condition in which they borrowed it. It is expected to be returned having been fully cleaned and undamaged.

## 8. KBKA members must respect and adhere to the following BBKA policies:

- 8a. Safeguarding Policy and Procedures.
- 8b. Equality, Diversity and Inclusiveness Policy.
- 8c. Whistle Blowing Policy.

All of the above can be viewed on the BBKA website through the link below and whilst the documents state that each branch will have their own versions KBKA will adhere to those versions prepared by BBKA:

<https://www.bbka.org.uk/risk-assessments>

## 9. Mentor Programme Guidelines

**9.1 Goals** -To support the success of beginner beekeepers and maximise their inclusion in club activities, including apiary sessions and club meetings and to support the development of competent beekeepers able to successfully complete the Basic Assessment after one to two years.

**9.2 Objectives** - To provide a support programme for new and inexperienced beekeepers to encourage responsible and enjoyable beekeeping. This may include beekeepers in their first two years of beekeeping or those yet to acquire bees. To provide clear guidelines on what is expected of both mentors and mentees within the mentor / mentee arrangement.

## Mentee guidelines

9.4.1 The prospective mentee must be a fully paid-up member of Kennet Beekeepers Association (KBKA). This means a full member if the prospective mentee already has bees or an associate member if not yet in possession of bees. An associate member must change their membership to full membership status upon acquiring bees.

9.4.2 The mentee should have attended an introductory course on beekeeping, although not necessarily one run by the KBKA.

9.4.3 Prospective mentees will be assigned a mentor by the KBKA Education Secretary. The KBKA Education Secretary will aim to allocate a mentor who lives within a reasonable distance of the mentee in order to keep costs and demands to a minimum but this cannot be guaranteed.

9.4.4 The mentor is not expected to carry out routine beekeeping activities for the mentee.

9.4.5 The duration of a mentoring arrangement will last for at least one full beekeeping year but may be ongoing (on an informal basis) if both parties agree.

9.4.6 During the initial mentoring period, the mentee may expect to receive 3 or 4 visits to the mentee's apiary. The dates and times of these visits should be by mutual agreement. Once agreed, both mentor and mentee should avoid late cancellation or postponement otherwise the mentoring arrangement may be revised or terminated. By mutual arrangement, more than 3 or 4 visits may be agreed.

9.4.7 Both parties should agree on their preferred means of communication. However, this must not be excessive and contact should be made at reasonable times, as agreed by both unless in an emergency. A mentor's responses should be timely but need not be immediate.

9.4.8 The mentee should attempt to answer any questions / resolve any issues themselves before contacting their mentor. A list of resources is included above.

9.4.9 When the mentor visits, the mentee should ensure easy access to the apiary and that all equipment is readily to hand.

9.4.10 If the mentor / mentee relationship is difficult, either party can refer to the Education Secretary to seek resolution.

9.4.11 The mentor may conclude that more support is required than can be provided via the mentoring programme. In this situation, the mentee may be advised to reduce the number of colonies or that s/he has or someone else may be asked to provide more intensive support in the role of bee buddy for a limited period. The support provided will be agreed on a case-by-case basis and agreed by the KBKA Committee.

## Mentor guidelines

9.5.1 A mentor should be a good communicator and willing volunteer.

9.5.2 A mentor should normally have a minimum of three years' experience of bee keeping and have either passed the BBKA Basic Assessment or have been keeping a minimum of five hives for five years or more.

9.5.3 Mentors are expected to provide guidance and advice to their mentee. They are not expected to perform routine beekeeping tasks that a new beekeeper would be able to undertake if they had completed an introductory bee keeping course and attended practical open apiary teaching sessions.

9.5.4 Mentors must not charge for their services although they can request their travel expenses to be paid. See KBKA Expenses and Reimbursement Policy.

9.5.5 During the initial period, the mentor may expect to make 3 or 4 visits to the mentee's apiary. The dates and times of these visits should be by mutual agreement. Once agreed, both mentor and mentee should avoid late cancellation or postponement. By mutual arrangement, more than 3 or 4 visits may be agreed.

9.5.6 The mentor should respond to emails and telephone calls from the mentee in a timely manner. The method of communication should be agreed by both.

9.5.7 As above, the duration of a mentoring arrangement will last for at least one full beekeeping year but may be ongoing if both parties agree.

9.5.8 If the mentor / mentee relationship is difficult, either party can refer to the Education Secretary to seek resolution. The mentor may conclude that more support is required than can be provided via the mentoring programme. In this situation, the mentee may be advised to reduce the number of colonies or that s/he has or someone else may be asked to provide more intensive support in the role of bee buddy for a limited period. The support provided will be agreed on a case-by-case basis and agreed by the KBKA Committee.
